Identificador	Configuració/MSP	Serie Rx
USB VCP	<input checked="" type="checkbox"/> 115200	<input type="checkbox"/>
UART1	<input checked="" type="checkbox"/> 115200	<input type="checkbox"/>
UART2	<input type="checkbox"/> 115200	<input checked="" type="checkbox"/>
UART3	<input type="checkbox"/> 115200	<input type="checkbox"/>
UART4	<input type="checkbox"/> 115200	<input type="checkbox"/>
UART5	<input type="checkbox"/> 115200	<input type="checkbox"/>
UART6	<input type="checkbox"/> 115200	<input type="checkbox"/>
UART7	<input type="checkbox"/> 115200	<input type="checkbox"/>
UART8	<input type="checkbox"/> 115200	<input type="checkbox"/>

Receiver

Serial-based receiver (SPEKSAT, \$) Receiver Mode

Note: Remember to configure a Serial Port (via Ports tab) and choose a Serial Receiver Provider when using RX_SERIAL feature.

UART5	<input type="checkbox"/> 115200	<input type="checkbox"/>
UART6	<input type="checkbox"/> 115200	<input type="checkbox"/>
UART7	<input type="checkbox"/> 115200	<input type="checkbox"/>
UART8	<input type="checkbox"/> 115200	<input type="checkbox"/>

Receiver

Serial-based receiver (SPEKSAT, \$) Receiver Mode

Note: Remember to configure a Serial Port (via Ports tab) and choose a Serial Receiver Provider when using RX_SERIAL feature.

CRSF Serial Receiver Provider

iFlight SucceX-D whoop

ELRS Connection Method 1

ELRS
CRSF

Receiver

Serial (via UART) Receiver Mode

The UART for the receiver must be set to 'Serial Rx' (in the Ports tab)

Select the correct data format from the drop-down, below:

CRSF Serial Receiver Provider

☒ TELEMETRY Telemetry output

Identificador	Configuració/MSP	Rx sèrie	Sortida de Telemetria	Entrada de Sensor	Perifèrics
UART2	<input type="checkbox"/> 115200	<input checked="" type="checkbox"/>	<input type="checkbox"/> Deshabilitat	<input type="checkbox"/> AUTO	<input type="checkbox"/> Deshabilitat

ELRS Connection Method 2

● Notice:
Due to component differences or circuit design, if you are using an iFlight brand ELRS receiver, you can follow the Method 1 to connect.
If you are using a ELRS receiver from other brand, it may happen that the receiver light stays on after powered up, in this case please connect according to Method 2, and you need to refresh the receiver firmware, then select RCVR_INVERT_TX and connect the receiver's TX to FC's R2i.
